LSSA-011 Vacuum Mounting Cham

- Applications:**
- Castable resins**
 - Epoxies resins**
 - Acrylic resins**
 - Polyester resin**

CASTABLE VACUUM Mounting Chamber

Vacuum mounting of castable mounting resins significantly improves penetration of voids and provide better edge retention. The LSSA-011 vacuum impregnation unit allows for pouring the resin under maximum vacuum and for mounting multiple specimens.

Improves specimen mounting with castable resins such as epoxies, acrylics and polyesters.

Benefits:

- Increased resin penetration**
- Fills open voids, porosity, and cracks for more accurate specimen preparation**

Technical Specifications:

Feature	Specification
Bell jar	Plastic
Pouring mechanism	Tilting, retractable arm
Vacuum	Vacuum pump (optional)
Dimensions (WxHxD)	12" x 12" x 12" (300 x 300 x 300 mm)
Weight	2.2 lbs (1 kg)
Part Number	LSSA-011
