Section 4: First-Aid Measures

INHALATION: Move to fresh air. If breathing is difficult, have qualified personnel administer oxygen. Seek medical attention if irritation or other symptoms persist.

SKIN CONTACT: Wash skin with soap and water. If irritation or other symptoms develop, seek medical attention.

EYE CONTACT: Remove contact lenses if present. Flush eyes thoroughly with large amounts of water, holding eyelids open. If irritation persists, seek medical attention.

INGESTION: Do not induce vomiting. Rinse mouth with water. Seek medical attention if large amount is swallowed or if you feel unwell.

SYMPTOMS Effects, Acute Delayed:
Dust may cause eye and respiratory irritation. Prolonged inhalation of high concentration of dust may cause adverse effects on the lungs. Contains titanium dioxide. Prolonged overexposure to respirable dust may increase the risk of lung cancer. Risk of cancer depends on duration and level of exposure. Exposure to dust generated from processing the base material or coatings may present additional health hazards.
Section 5: Fire-Fighting Measures

SUITABLE EXTINGUISHING MEDIA: Use suitable media for the surrounding fire. Do not use water on fires involving metals dusts. Use an appropriate dry powder. Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing equipment.

SPECIFIC HAZARDS DURING FIRE FIGHTING: These products are not flammable or combustible; however, consideration must be given to the potential fire/explosion hazards from the base material being processed. Many materials create flammable/explosive dusts or turnings when machined or ground.

Section 6: Accidental Release Measures

EMERGENCY PROCEDURES: Avoid contamination of water supplies and environmental releases. Report spills as required by authorities.

METHODS OF CONTAINMENT AND CLEAN-UP: Collect dry material, avoiding creating airborne dust. Place in a suitable container for disposal.

ADDITIONAL ADVICE: Notify authorities if any exposures to the general public or environment occurs or is likely to occur. See Section 13 for information on disposal.

PROTECTIVE EQUIPMENT: Wear appropriate respirator and protective clothing as needed to avoid eye contact and inhalation of dust.

Section 7: Handling and Storage

HANDLING: Inspect wheel prior to mounting on machine for damage. Do not use at speeds greater than product maximum rates per minute (rpm) as indicated. Use with adequate ventilation. Avoid breathing dust. Avoid eye and skin contact with grinding dust. Wear suitable eye protection, gloves and appropriate protective clothing. Wash thoroughly after handling. Consider potential exposure to components of the base materials or coatings being ground or cut. Refer to OSHA substance specific standards for additional work practice requirements where applicable.

STORAGE: No special storage required. Avoid excessive temperatures in storage. Store in a dry area.
